The Armin Homann Foundation 2022 Scholarship

The Armin Homann Foundation was created in memory of Armin Homann, a German refugee during World War II, professional soccer player, and reputable radio host. Armin envisioned an idea of bringing the German community together when he arrived in Chicago, and achieved this throughout his life. In 2016, Armin received the “German American Friendship Award” by the German Ambassador, on his contribution of bringing the German and Americans hand in hand for a brighter future of unity and culture.

Friends and colleagues have created the foundation in memory of Armin to help benefit high school youth who are a part of the German community.

The Armin Homann Foundation plans to award up to \$6,000. The scholarships are awarded for deserving high school seniors who are enrolling in a college program or current college students, and who wish to continue in Armin’s footsteps of advocating for the German culture.
